

## HD7000

Heavy Duty Electric Punch - INCLUDES FREE STANDARD DIE

### Description

The PDC HD7000 is part of the new Rhino Tuff range of punching and insertion equipment available exclusively through PDC. The HD7000 allows up to 30 sheets of 80gsm to be punched dependent on punch pattern and is ideally suited to any environment where high volumes of punching are required. With a large range of punch patterns available including Coil, Wire (even calendar dies), Comb etc, the quick die change feature means that any number of punching jobs can be undertaken using one machine.

### Features and Benefits

- FREE Standard Die Included.
- Patented Anti - Jam feature. Our new overload detection feature, triggers an auto reverse function to eliminate jamming in the punch.
- Quick Die change system with no tools and nothing to take apart.
- More than 20 interchangeable die sets with 12 hole patterns as standard.
- 356mm or 14" punching width with open ends for wider applications.
- Rated at 90 cycles per minute.
- Pre set paper stop makes changing paper formats quick and simple.

### Technical Specification

Dimensions (mm):	H 203 x W 426 x D 432
Weight:	34.47 Kgs
Power Requirements:	230v 50Hz
Method of Operation:	Foot pedal, Palm switch or optional Micro switch
Safety Approvals:	CE/TUV
